Summary

Computer Science Student with a strong foundation in Python, C++, NumPy, Pandas and Machine Learning. Experienced in delivering technical concepts through Peer Tutoring and completing software internships focused on efficient code development. Proven ability to build complex logic, such as voice assistant. Seeking to leverage technical skills.

Experience

UMT | Peer Tutor

Lahore | Nov 2025 - Present

- Mentored juniors in foundational computer science subjects: Programming Fundamentals (PF), Object-Oriented Programming (OOP) and Data Structures (DSA).
- Conducted one-on-one debugging sessions, guiding students to identify logical errors and develop stronger problem-solving skills.

CodeAlpha | Summer Intern

Remote | Aug 2025 – Sep 2025

- Developed different C++ projects including a Login & Registration System
- Implemented algorithms, file handling, and object-oriented programming concepts.
- Managed project source code on GitHub and created public project demos.

Education

UMT | BS Computer Science

Lahore | Oct 2024 – July 2028

- CGPA: 3.66 / 4
- Activities and societies: Team member in UMT ACM, UMT MUN and UMT Tecverse

Skills

- **Technical Skills:** Machine Learning | NumPy | Pandas | Python | Microsoft SQL Server | SQL | HTML | Git | Frontend | CSS | JavaScript | Assembly Language | C++ | Networking | File Handling | JSON | Api integration | Data Structures | Object Orientated Programming | File / IO | AI agents | File Handling
- **Soft Skills:** Problem Solving | Peer Mentoring | Management | Analytical Thinking

Projects

- **Python Voice Assistant:** Developed a Python-based voice assistant with AI integration, automation features, and multi-platform command execution.
- **Portfolio Website:** Developed a full fledge portfolio website to showcase my projects.

Licenses & certifications

- **Meta:** Programming With Python.
- **Meta:** Introduction to Back-End Development.
- **LinkedIn:** Deep Learning: Getting Started.
- **LinkedIn:** Artificial Intelligence Foundations: Neural Networks.
- **LinkedIn:** Deep Learning with Python: Convolutional Neural Networks
- **LinkedIn:** Using Python for Automation
